

Cookies Policy

Last updated: 26 August 2026

What cookies are

Cookies are small text files stored on your device when you visit a website. Similar technologies include pixels, local storage and tags inside embedded players. This policy explains how they are used on joelcorry.com.

Cookies we use

We do not run a third-party advertising cookie platform on this site. Cookies and similar technologies may still be set in these cases:

- Essential operation. The site and hosting platform may set cookies or similar storage needed to load pages securely and remember basic technical state.
- Embedded players (essential). Spotify, YouTube and Bandsintown are required for music, videos and tour dates on this site, so those players load as part of the site. Those providers may set their own cookies.

We do not currently use Google Analytics, Meta Pixel, or similar advertising cookies on this website.

How to control cookies

When you first visit, a banner explains these essential cookies. Cookie Settings in the footer reopens that notice. There are no optional advertising or analytics cookies to turn off. Necessary cookies (including remembering that you have seen the notice) stay on so the site can work.

You can also block or delete cookies through your browser settings. If you block cookies, some features (including the music player, videos and tour dates) may not work properly.

More information

For how we handle personal information more broadly, see the Privacy Policy. These cookie details may change if we add or remove services; the date at the top of this document will be updated when that happens.
